Reference for Max Mustermann

This reference confirms that Max Mustermann worked with SampleSoft Solutions GmbH as an Apprentice IT Specialist for Application Development.

During his placement, Max supported basic programming tasks, internal documentation, and introductory system administration activities. He worked primarily with Java, SQL basics, client administration, and simple network-related tasks.

Max showed a structured and reliable working style. He was able to follow technical instructions, document his work clearly, and ask useful clarification questions when requirements were unclear.

Main strengths:

- Basic Java programming
 - SQL fundamentals
 - Client and server administration basics
 - Network component understanding
 - Microsoft Office and Eclipse usage
 - Clear communication with internal users
- Max was punctual, cooperative, and motivated to improve his technical skills.
